

Tender Tank

The Tender Tank instantly transforms a truck into a water tender. The Tender Tank is available in four sizes that fit perfectly into most truck beds. The low profile design of each tank allows for even weight distribution while full baffles ensure maximum stability. The heavy duty PVC coated nylon fabric provides durability and strength.

Features

- Compact for easy storage behind a truck seat
- Grommets along the side of the tank secure it to the truck box
- 4" (10 cm) filler cap with built-in flotation collar for fast unassisted fills and 1.5" ball valve for fast water discharge
- Can be made with potable (drinking) water fabric

Specifications

| Model | Capacity | | Dimension (L x W x H) | | Filled Height | |
|----------|----------|------|-----------------------|----------------|---------------|------|
| | USG | L | IN | CM | LB | KG |
